

TEST CONFIRMATION

according to elastomer guideline extended transitional rule concerning the examination of flat gasket material samples "sheets produced with KLINGERSIL® C-4240" in accordance with the guideline for hygienic assessment of elastomers in contact with drinking water (Elastomer Guideline) of Umweltbundesamt (UBA)

Manufacturer: Rich. Klinger Dichtungstechnik GmbH & Co. KG, Gumpoldskirchen, Österreich
Type of the test material: flat gasket material
Brand Name of the test material: "sheets produced with KLINGERSIL® C-4240"
Type of the sample: sheets
Samples received: 04.11.2020
Sampler: manufacturer
TZW-reference-no.: KA 0245/20

Test results

1. Material composition: was given under KC 280/20 and approved
2. Migration test:
Cold water 23°C: requirements kept
Hot water 85°C: requirements kept
Test results see Prüfzeugnis KA 0245/20 of 09.03.2021
3. Summary:
The examined flat gasket material samples "sheets produced with KLINGERSIL® C-4240" comply with the requirements of the Elastomer Guideline of Umweltbundesamt (UBA) (Bundesgesundheitsblatt current version) in the complete range of gaskets.

Remarks:

This confirmation expires 5 years after the date of issue, if not otherwise limited by product standards/certification reasons or by changes in the procedural conditions.
Reference to the original German text is recommended if necessary.
